IX. New Business

- + HRPC's Role: start to educate people about things such as drugs. Article in the Setonian is bothersome (October 27, 2005). It was the cartoon about Halloween, it perpetuates stereotype that you don't go right around the corner from the school. Go to the Dean and approach again. This time write a letter. Volunteers are Freedom, MLKSA, & Charee to compose a draft and bring up at next meeting. If have any ideas, bring it to representatives.
- We ask everyone to be part of a better community, to help themselves develop by taking part of all opportunities like NCBI workshops and other educations diversity trainings, but we need to start by ourselves. Let's ask at our next meeting, who has been at one day and who is planning on attending one. Follow up of NCBI training [November 18].

Next meeting Wednesday, November 09, 2005 at 1pm in JH 132
